

**#ANDON
WIRELESS
LAMP**

ANDON

“Andon takes inspiration from traditional Japanese wood-framed washi paper lamp that originally would have contained a small vessel of burning oil as a source of light.

Some Andon were portable and could be carried from room to room, or out into the streets at night. With electrification, however, their utility faded.

For Ichendorf Milano I have rethought this traditional concept in a contemporary way with an aesthetic that link east and west culture. Andon using led system without wire and thanks to the handle is easily to carry from your interior to outdoor.

Andon has a reflected light in transparent blown glass with direct down light. Is suitable for home, restaurant and public space.

The on/off touch button allows the set the light intensity in 3 level of brightness.

The absence of the stem create an effect as like the handle is floating.

Furthermore the handle is connected to the electrical part without visible connections respecting the minimalist dna of the lamp.

A suspended light giving warmth and cosiness on a dark evenings..”

Condizioni di garanzia

Ichendorf offre un periodo di garanzia di due (2) anni per tutti i prodotti LED. Durante questo periodo di garanzia, ripareremo o sostituiremo, a nostra discrezione, i prodotti che risultano essere difettosi. Questa garanzia non si applica ai danni derivanti da incidente, alterazione, manomissione, uso improprio, negligenza o abuso.

Per tutte le informazioni sulla garanzia visitate il nostro sito www.ichendorfmilano.com nella - sezione garanzia.

Ichendorf Milano

Ichendorf was founded in the early Twentieth century, in a small town near Cologne named Quadrath-Ichendorf.

The Ichendorf style center, a creative hub for artists and designers, was established in Milan in 1990.

All Ichendorf objects are yielded by the ongoing exchange between tradition and innovation, in an encounter that pursues beauty in its purest form.

La storia aziendale Ichendorf ha inizio nei primi anni del Novecento, in una località vicino Colonia, dal nome Quadrath-Ichendorf.

Dal 1990 il centro stile Ichendorf si stabilisce a Milano, polo creativo di artisti e designer.

L'incontro e lo scambio costante di tradizione e innovazione, sempre rivolto alla ricerca della bellezza nelle sue forme più pure, dà vita a tutti gli oggetti Ichendorf.
